Continuation of Substance of Interview including description of the general nature of what was discussed: It was agreed to amend claim 26 to read that the plasma treatment of the adherend is for a period greater than 30 seconds and up to about 30 minutes because as previously worded it read on both the adherend and material being treated for up to 30 seconds, which one of ordinary skill in the art would have understood Chen to teach (Column 4, lines 44-46).
